Immersion Weekend Workshop

Assistive Technology and the Student Who is Blind/Visually Impaired: Finding the Right Match

Saturday & Sunday, April 21-22, 2012

Sat: 10:00am - 4:00pm; Sun: 9:00am -12:00pm

Assistive Technology and the Student Who is Blind/Visually Impaired: Finding the Right Match will be presented by Mr. Ike Presley, National Project Manager, American Foundation for the Blind, April 21-22, 2012. This weekend workshop will review the components of and information needed to conduct an Assistive Technology (AT) assessment of a student who is blind or visually impaired, address how to determine which technology tools are best for accomplishing specific tasks and how to present the appropriate rationale and justification when recommending specific AT for students.

Sponsored by: Perkins Training Center

Presenters: Mr. Ike Presley, M.Ed.
National Project Manager, American Foundation for the Blind

Hosted By: Dominican College
470 Western Highway
Orangeburg, NY 10962

Cost: \$75.00

At the completion of this workshop, participants will have increased knowledge of:

- the procedural components necessary to conduct an AT assessment of a student who is blind or visually impaired
- the three broad areas in which technology provides tools that can assist students who are blind or visually impaired
- at least three types of technology for accessing printed & electronic information
- at least three types of technology that can assist students who are blind or visually impaired in written communication
- at least three types of technology that can assist teachers of students who are blind or visually impaired in producing materials in alternate formats
- which technology tools are best for accomplishing specific educational tasks
- rationale and justification that can be used when recommending specific AT for students who are blind or visually impaired
