

Perkins Training Center Dominican College

Immersion Weekend Workshop **Brain Science for Children with Sensory Impairments: Learning Through the Senses**

Saturday & Sunday, December 10-11, 2011
Sat: 10:00am - 4:00pm; Sun: 9:00am -12:00pm

We call this "The Decade of the Brain". As teachers, therapists and parents of children with disabilities, we must keep pace with the latest learning and brain theory to offer children best practices for instruction. With the improvements in the understanding of how the typical brain functions, there is improvement in our understanding of learning and perception. As we grasp how the typical brain and the senses gather knowledge about the world, new insights are developing for working with children with disabilities. This workshop will be conducted by Ellen Cadigan Mazel, M.Ed., CTVI from Perkins School for the Blind.

Hotel Accommodations are available at the newly renovated Holiday Inn in Orangeburg, NY, (845)359-7000 within walking distance of the college. Mention Dominican College Teacher of the Blind Program when you book your room for the Dominican College rate of \$99/night.

Sponsored by: Perkins Training Center

Presenter: Ellen Cadigan Mazel, M.Ed., CTVI
Educational Partnerships, Perkins School for the Blind

Hosted By: Dominican College
470 Western Highway
Orangeburg, NY 10962

Cost: \$75.00

At the completion of this workshop, participants will have increased knowledge of:

- Identify basic brain anatomy.
- Identify best practice for use of all the senses for learning.
- Write goals and objectives to improve use of multisensory instruction.
- Provide essential processing time for learning and practicing skills in Modifications and Adaptations on IEPs.

Completed Registration form and fee is due no later than **Monday, November 28, 2011** to:
Perkins Training Center, 175 N Beacon Street, Watertown, MA 02472
perkinstrainingcenter@perkins.org or Fax: (619) 972-7209
