School is Closed
School where I learn with friends and teachers.
Sometimes school closes, like on weekends, vacations, and snow days.
School is closed for now. That’s okay! It’s like a vacation.
Right now some people are getting sick more than usual. School closed so kids won’t get sick!
School will open again when it can. People don't usually get sick at school. It is a safe place.
I can stay healthy when I wash my hands, try not to touch my face, and stay in my personal space.
If I feel worried or confused, I can tell an adult how I feel or ask them questions.
I will do a great job being at home!
The End
